

Eternal Flame

Use:

Please fully charge your new mori.london lamp using a mobile phone charger with a micro USB cable (not supplied).

The orange charge light will light up during charging.

The on/off button is located at the bottom of the circuit board. Press briefly and let go, the light will switch on 2 seconds later and show you the battery status before the flame will activate.

Trouble shooting:

Please make sure the battery has not become dislodged in transit. Both battery contacts have to press firmly against the battery for charging and normal operation.

Technical specification:

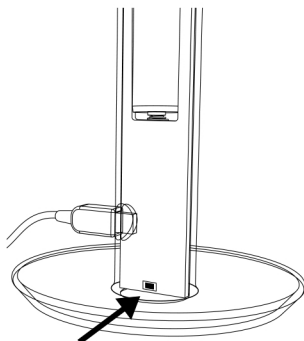

PCB - Assembled in the UK

Borosilicate Glass - Turkey

Recycled Cardboard - UK

Sanyo 16650 Rechargeable Battery -

Japan/China

Push the button to turn the candle on.

Support:

All service and repairs must be carried out by mori.london. Attempting to repair the piece yourself or by a third party will render any return or warranties null and void.

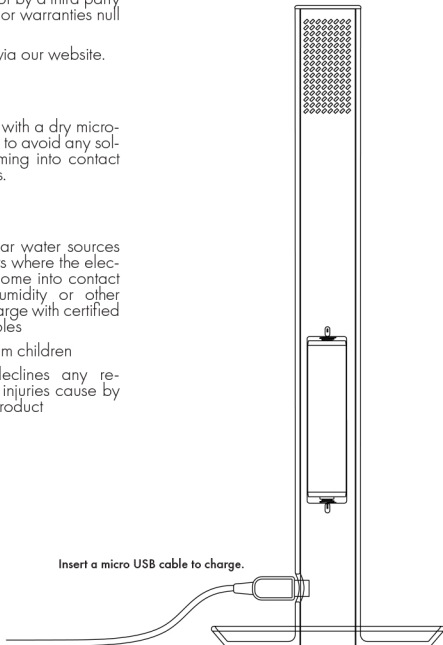

Contact mori.london via our website.

Cleaning:

Clean the glass outer with a dry micro-fibre cloth taking care to avoid any solvents or solutions coming into contact with naked electronics.

Warning!

- Do not use near water sources or environments where the electronics could come into contact with water, humidity or other fluids. Only charge with certified micro USB cables
- Keep away from children
- mori.london declines any responsibility for injuries cause by misuse of the product

Insert a micro USB cable to charge.
